Quality Deer Management:  
WFB 4150/6150

COURSE DESCRIPTION:
During this online long summer course, the four cornerstones of quality deer management (herd management, herd monitoring, habitat management and hunter management) as well as deer biology, behavior and ecology will be presented. Estimates of population parameters using several sources of data for individual properties and how to apply these findings to a deer management plan will be discussed. Successful completion of the course will qualify students for QDMA Deer Steward I certification.

APPLYING TO CLEMSON:
To start the process for enrolling as a non-Clemson student, please visit the website: http://www.clemson.edu/summer/summer-school/.

CONTACT:
Dr. Dave Guynn (dguynn@clemson.edu) or Susan Guynn (sguynn@clemson.edu).

TUITION REDUCTION: $1,500
